PROJECTS

•Trackate – Smart Expense & Bill Splitting App (Android & iOS) | Play Store

Feb 2026

A cross-platform finance app with expense tracking, budgeting, and group bill splitting (Free Splitwise alternative).

- Built using Flutter, providing seamless cross-platform experience on both Android and iOS; achieved 1000+ downloads on Google Play Store and Apple App Store.
- Implemented automatic expense detection and smart categorization, reducing manual input effort and improving user experience.
- Designed scalable backend integration for real-time expense syncing and multi-user collaboration.
- Technology Used: Flutter, Firebase.

•SpinMeal – Smart Food Decision App (Android & iOS) | Play Store

March 2026

A cross-platform mobile app to help users quickly decide meals, reducing daily decision fatigue.

- Developed using React Native with state-driven architecture and dynamic data handling for real-time, personalized meal suggestions.
- Designed smooth and responsive UI interactions, improving user engagement and usability.
- Deployed production-ready app on Google Play Store and Apple App Store.
- Technology Used: React Native, Firebase

•Rescale India Foundation – NGO Website | Live Website

Apr 2025

A responsive website representing the NGO's mission and programs.

- Designed and developed a responsive, user-friendly website with focus on accessibility and user experience.
- Structured content architecture to improve navigation and user engagement across devices.
- Delivered a production-ready website aligned with the organization's branding and communication goals.
- Technology Used: HTML, CSS, JavaScript.

EXPERIENCE

•MILLROCK INDUSTRIES PRIVATE LIMITED Internship

Feb – Apr 2025

Full-Time Internship

Offline

- Contributed to the development of "EDUATE", an AI-powered EdTech platform focused on personalized and accessible digital learning experiences.
- Worked on cross-platform mobile app development for Android and iOS, building modern and responsive user interfaces with a premium learning experience.
- Implemented core features including course management, test modules, offline content access, analytics dashboards, and secure authentication systems.
- Collaborated on improving app performance, scalability, and overall user experience across the mobile application and web admin ecosystem.

•Rescale India Foundation (NGO Website)

Apr 2025

Develop NGO Website

Online

- Designed and developed a responsive, user-friendly website to represent the NGO's mission and programs.
- Structured and styled content for clear navigation and improved accessibility across devices.
- Delivered a fully functional website aligned with the organization's branding and communication goals.
